Bringing compliance readiness to health facilities operations

CRx is a cloud-based compliance platform that ensures ongoing compliance readiness with The Joint Commission (TJC) chapters of Environment of Care, Life Safety and Emergency Management. With the TJC and Centers for Medicare & Medicaid Services compliance dashboards, health care facilities can stay on top of compliance requirements with prebuilt element of performance (EP) checkpoints and crosswalks to conditions of participation. Not only does CRx track

## Grainger Launches CRx Compliance Solution by HealthCare Facility Compliance Corp

Digital solution for 24/7 compliance readiness

July 31, 2020

The Joint Commission recently provided guidelines stating, "Our survey process will … need to employ physical distancing practices… and will **include maximizing the use of technology.**" Many hospitals have already taken steps in this direction and others are considering the technology offering from W.W. Grainger - CRx. Betsy L. Pooley, P.E., Director of Facilities and Safety at Akron Children's Hospital, says **"As we venture into the world of increasing virtual surveys and full electronic documentation vs. hundreds of paper-based binders and spreadsheet tracking for numerous facilities** we are certain CRx, which we recently implemented, will make our job so much easier. Management of and visual tracking to ensure standards and documentation are up to date and what is coming due or even

needed. Additionally, all compliance documentation, such as work orders, inspections, repair orders, ILSM and infection control risk assessments, are housed together in a single, cohesive package for verification."

software to our portfolio will allow more health care organizations to streamline and simplify regulatory compliance." Ilan Nachmany, CEO of HealthCare Facility Compliance Corp, a visionary behind CRx, comments that "With the new COVID-19
